SKILLS

- | | |
|------------|--------------|
| HTML | EJS |
| CSS | MongoDB |
| JavaScript | NodeJS |
| Typescript | ReactJS |
| ExpressJS | VueJS |
| NestJS | AstroJS |
| PostgreSQL | TailwindCSS |
| MySQL | Git & Github |

EXPERIENCE

Software Engineer

EkasaTech - Full Time
Sep 2022- Jun 2025
Surakarta, Central Java, Indonesia · Hybrid

As a Software Engineer, almost all of the work that I handle uses the Typescript programming language which includes developing servers with NestJS, PostgreSQL, TypeORM. Develop frontend including admin panel with VueJS, ReactJS, DevOps and Database Management.

Indie Hacker & Full Stack Developer

Quinvy - Full Time
Jul 2025 - Present
Gunungkidul, DI Yogyakarta, Indonesia · WFH

Founded and developed a SaaS platform from concept to production, designing and implementing a scalable multi-tenant architecture using React, NestJS, PostgreSQL, and Redis. Built core features including authentication, organization management, role-based access control (RBAC), invoicing workflows, and payment integration with Paddle, while managing the full product lifecycle from system design and development and ongoing improvements.

CERTIFICATES

Hackerrank

October 02nd 2021
Problem Solving (Basic):
